Expect Excellence
School District of New Berlin

School and Community

New Berlin West is a comprehensive high school that guides and supports students to prepare for their appropriate post-secondary experience. We work with students through their Academic and Career Plan (ACP) to identify both coursework and learning experiences that promote both their achievement-based and dispositional development, making their learning applicable to potential post-secondary experiences. One of two secondary schools in the district, New Berlin West serves approximately 800 high school students in an upper middle class community.

Vibrant Community

New Berlin West focuses on a community that provides opportunities and supports all learners to engage with practices that promote skill development. With a focus on the core subjects through involvement and depth presented around an array of extended experiences within and outside of the classroom, students are able to explore options, develop skills and grow as individuals. The faculty and staff are an integral part of the school community and outstanding resource. Parent involvement, interest and support complete the circle of support and dedicated interest in student success.

Parent Involvement

The school is fortunate to have an involved parent community that is interested in the academic, social, and community success for their children. Parents show interest in their children and their learning while working as partners with the school to ensure appropriate opportunities, involvement, and experience for their student(s). We value the involvement of parents in all ways that positively impact our students and help them to have choice in their preparation for learning beyond high school.

US News & World Report Best High Schools in America 2024

Ranked #3 in State by MacIver Institute AP Honor School 2023

Student/Teacher Ratio

15:1

Well-Rounded Learning Experience

- A rigorous curriculum with significant options for students seeking a college or other post-secondary preparatory experience.
- Support from counselors, advisors and other staff to guide and support the student's Academic/Career Plan.
- Weekly advisory time targeted to support student learning pathways, digital citizenship, ACT preparation, and progress monitor learning and goal plans.
- A safe and secure learning environment within the school that supports and reinforces respect.
- Programming and planning for coursework and experiences aligned to our College and Career Readiness Vision for students.
- Six levels of world language offerings in the areas of Spanish, French, Latin and Chinese.
- Service learning and other offerings for students encouraging civic responsibility and personal integrity.
- Options for students to take coursework at their level and progressively advance to meet their learning needs.
- School structure allows for middle school students to take high school coursework within their building and schedule.
- A full range of activity, arts, and athletics offerings to support student involvement and learning within and beyond the classroom.
- Thirty-two available Advance Placement course offerings and other additional post-secondary options for students within and outside of our campus.
- Programming specific to aligned pathways in manufacturing, health sciences, and information technology.
